

Amendments to the Specification:

After the title of the invention ending at page 1, line 3, please add the following heading and paragraph:

CROSS-REFERENCE TO RELATED APPLICATIONS

This application claims the benefit of International Application Number PCT/SE2004/001217, which was published in English on March 24, 2005.

Please insert the following heading prior to the paragraph beginning on page 1, line 3:

FIELD OF THE INVENTION

Please insert the following heading prior to the paragraph beginning on page 1, line 11:

BACKGROUND OF THE INVENTION

Please insert the following heading prior to the paragraph beginning on page 1, line 24:

SUMMARY OF THE INVENTION

Please insert the following heading prior to the paragraph beginning on page 1, line 28:

BRIEF DESCRIPTION OF THE DRAWINGS

Please replace the paragraph beginning on page 2, line 6 with the following:

The wire arm 15 is provided with a curved support surface 30 (as seen in the second axis 16 direction) for a wire 17 extending in a forward direction from the wire arm. The curved surface extends at least 15° about the second axis 16 and is U- or V-shaped in section. Alternatively the support surface 30 is provided with mainly radially extending, spaced side wall portions at each side of the support surface 30.

Please replace the abstract of the disclosure with the following:

A throttle control device for a hand held tool, such as a chain saw, is provided. The tool is provided with a forwardly extending wire for transmitting a motion from a throttle control lever turnably arranged about a first axis to a throttle valve. One end of the wire is secured to a wire arm that is turnably arranged about a second axis. The wire arm is provided with one or several teeth cooperating with the throttle control lever and the second axis is arranged behind the first axis.
